

# HOME DECOR & STAGING

DCM  
Photography

Capture the unique elegance of your home

**Picture your home!** Your home - it's an extension of who you are. A private sanctuary that shelters family and loved ones, it's also a showcase of personal tastes and passions. We work hard to maintain the beauty, grace and comfort of our homes.

Whether you wish to document your latest successful renovation project, share your personal space with out of town friends and relatives, or advertise that your home is for sale, DCM photography

can capture your home in all its moods.

Floral arrangements, art displays, interior decor, architectural details, rooms, and amenities all come to life in crisp, colourful and detailed images.

Photographer Doyle. C. Marko brings a wealth of experience to each subject he captures. His professional career spans dance, research and study in Europe, and two decades as Artistic Director of Edmonton's Vinok Worldance.

His passion for photography has allowed him to capture scenes of traditional life throughout Europe, North America, and Asia.

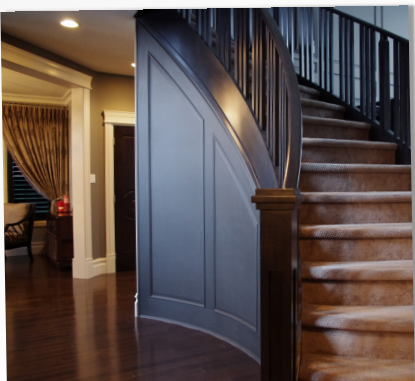

Doyle can capture your home in exquisite detail and will make all photographs available to you in CD, DVD, or slideshow format.

To book, please contact Doyle directly:
